Uerikon/Zurich, Switzerland, January 3, 2013

We are very pleased to inform you that

***Dr. Dimitri Stamatiadis PhD, MBA***

has formally joined our global **LSCP** network as **Partner** and **Member of the Management Team**.

Dimitri has a unique profile: More than 20 years of global experience in the biopharmaceutical industry - from early product evaluation to sales & marketing, he has been involved in virtually every step of drug development and lifecycle management and has acquired extensive knowledge of the entire process of bringing a drug to market. Dimitri also held managerial positions in Strategy and Performance Improvement (Balanced Score Card). He is just as comfortable with science as with operational excellence and has always stayed on the cutting edge of both technology and medicine.

***“The **LSCP** Global Management Team is very pleased to see Dimitri joining and become an active member of our global group. Not only his in-depth knowledge of industry business processes and transformation challenges, but also his human sense for performance improvement is a highly appreciated asset to leverage by our customers”.***

At the same time we would like to warmly bid farewell to one of our founding members,

***Dr. Raymond Benoit, MD***

Raymond joined us in early 2004 at the time, where patient/provider communication was not yet in the “headlines”, but becomes more and more a topic, especially in terms of interoperability (e.g. IDMP) and is now taking a well-deserved step into retirement.

We would like to thank Raymond for all his contribution in the past few years and for his professional advise.

***A very hearty welcome to Dimitri and Farewell to Raymond!***
