

From : **LSCP** Global Management Team  
To : Global Customers & Friends  
Subject : **Strong Partnership with data blueprint Inc.** to create solid foundation in Enterprise Data Governance (**EDG**) in context of IDMP+  
*For immediate release*

---

Uerikon/Zurich, Switzerland, June 20, 2016

***“Regulatory Grace Period”***

As we experience “final shift” in date for an enforced implementation of IDMP+ (SPL[R7] & ICSR[R3]), **LSCP Life Sciences Consulting Partners** Management Team is pleased to announce the already tested Partnership in the context of the ISO Standards with

**data blueprint Inc.**

We are mutually convinced that there is distinct momentum about industry and regulators will manage data (information of any type) in the future as a much higher granularity of content is required. But more important: What are the business benefits by implementing the standards: How can our customers achieve **EDG** while leveraging our experience?

**Data Blueprint – more methodology and technical**

A specialized data management consulting firm that puts organizations on the right path to leverage data for competitive advantage and operational efficiency. We unlock business value. It is our belief that strong data management capabilities are the key to sustained long-term value creation.

Our unique approach leverages core competencies in both foundational and technical data management practices. We help clients **leverage data** as a strategic investment and become data-driven.

**OUR MUTUAL OFFERINGS**

Our offerings are based on the guiding principles of developing a strong data management foundation before attempting to build systems and analytical platforms. The technical solutions can only be sustained over time if you take this approach. Therefore, we segment our offerings into Foundational Practices and Technical Practices as demonstrated in the graphic to the right.

**OUR GUIDING VALUES**

We strive to live our values in all of our interactions and engagements. You can count on us to be:

- *Honest:* We will give you the unbridled truth regarding your data and a roadmap to move forward
- *Collaborative:* We want you to think of our team as an extension of your own throughout and after the engagement
- *Insightful:* We rely on our experience, knowledge, and ability to understand with our Partner **LSCP** your organization in order to provide optimal solutions
- *Driven:* We work patiently and persistently with selfless dedication, focused on the outcome and goals of our clients, company, and individual growth
