Governance | Data Strategy & Technology | Data Ethics | Business Intelligence | Decisional Architecture | Data Architecture | Data Management | Analytics | Data Migration & Integration | Artificial Intelligence/Machine Learning Vision and Innovation | Business Analysis | Applications Development | Digital Transformation | Entrepreneurialism and Leadership | Stakeholder Management | Innovation | Collaboration | Motivating Highly Effective Teams

Career Accomplishments

- Initiated revolutionary program of change to transform struggling data and technology environment to a governed, data-driven culture with stable, democratic access to high value and sophisticated analytics and information in support of the University's \$1.3 billion campaign*.
- Working with the CIO of UN High Commissioner for Refugees, delivered a series of successful projects across Business Intelligence and DevOps, including re-architecting the organization's single most important database, the UNHCR Population Database.
- Architected and developed core deliverables for challenging multinational and multiphase Business Intelligence project while managing development and activities of business and technical resources in four regions (Switzerland, Italy, Australia, Japan) for a global packaged goods company
- Built a reputation as a Thought Leader in the Calgary marketplace through co-organizing and chairing Data industry conferences in Calgary and Edmonton, with key objective to stimulate the IT sector in an Alberta suffering from recession and broad unemployment.

Wade is based in Calgary, Alberta, Canada

"The LSCP Global Management Team is very pleased to have Wade joining and becoming an active member of our global group. As our customers start to move into large Data transformation programs, mainly IDMP+ driven, he will be an important additional conceptual, practice-based asset we can offer: An excellent addition to the Team!"

A very warm welcome to Wade!
